## Risk Management Portal: Be Prepared for a Computer Attack

### Cyber Criminals Act Without Warning

Can you afford to lose access to critical business data and systems? In today's digital and interconnected world, every organization relies on data and on the networked computer systems upon which data resides. Some organizations rely on data, systems and their connection to the internet as their primary means of conducting business. For others, data and systems play an important support function within the organization. No organization can afford to lose important data and systems while still functioning at an optimal level. Cyber criminals act without warning and the data and systems losses from computer attacks -- including significant out-of-pocket recovery costs and organizational downtime -- can be devastating.

### Immediate Access to Risk Management Tools

As part of our Cyber Suite coverage we offer an online cyber risk portal that equips you with risk management tools to help you plan and be prepared should a computer attack happen to your company. There's no cost; it's a complimentary service for our Cyber Suite insureds.

It's called eRiskHub® and it's designed to help you better understand your risks and establish a response plan so you can manage the costs and minimize the effects of a data breach should one occur. With a response plan and instant access to informative resources you'll be ready to more efficiently and cost-effectively respond to and recover from a computer attack.

### Key Features of the eRiskHub® Portal

**Incident Response Plan Roadmap** - includes suggested steps to take following a network or data breach incident

**Online Training Modules** - ready-to-use training for business owners on privacy best practices and Red Flag Rules

**Risk Management Tools** - assists you in managing your cyber risk including a self-assessment and state breach notification laws

**News Center** - cyber risk stories, security news, security and compliance blogs, risk management events and helpful industry links

**Learning Center** - best-practices articles, white papers and webinars from leading technical and legal practitioners

**eRisk Resources** - a directory to quickly find external resources with expertise in pre- and post- breach disciplines

### Register Now

To access the eRiskHub® portal you need to register and set up your unique User ID and Password. It's easy, just follow these steps:

- Enter <https://eriskhub.com/plm> in your browser
- Complete the information in the center of the page, including your name and company.
- Enter your assigned access code, **12116-915**
- Enter the challenge word on the screen, and click "Submit".
- You will get a "Registration Completed" message on the next screen. You can now log in to the portal.

### Log In and Start

Once you have set up access, enter your User ID and Password into the Member Login box in the upper right of the site banner, and click "Submit" to access the eRiskHub® portal.

If you forget your password, click on the link to have your password reset. Remember, your User ID and Password are case-sensitive.
